☐ FAIRWAYS ☒ RANGES ☐ NATIVES
(Plant Protectant Information available upon request at 410-356-1317)

Please Repair All Ballmarks

- Thank you for your continued repairing of ballmarks and filling of divots.
- Pictured is a group of crew members working on fine tuning our bunkers. This process is important to make sure bunkers have the correct amount of sand on the faces and bottom and allows us to redefine the edges of bunkers. Making these improvements allows for better playability.
